#### DESCRIPTION OF INSTALLATION

##### Road Service

This installation is served by poor, loose-surfaced roads which connect to secondary roads in the area. Located on the west side of the Don River, with no bridges in the immediate area, this installation has no direct access to the Volgograd area.

##### Administrative and Troop Housing Areas

Area D1 contains 3 multistory possible barracks.

Area D2 contains 51 quarters and 2 administration buildings.

##### General Storage Areas

Area E1 contains 1 storage building and a possible building foundation or open storage area.

Area E2 is separately fenced and contains 6 storage buildings.

##### Equipment Storage/Maintenance Area

Area J is a 1,100- by 950-foot vehicle/equipment park and contains five 150- by 45-foot vehicle storage/maintenance buildings, one 170- by 55-foot multistory vehicle maintenance building, and 4 support buildings.

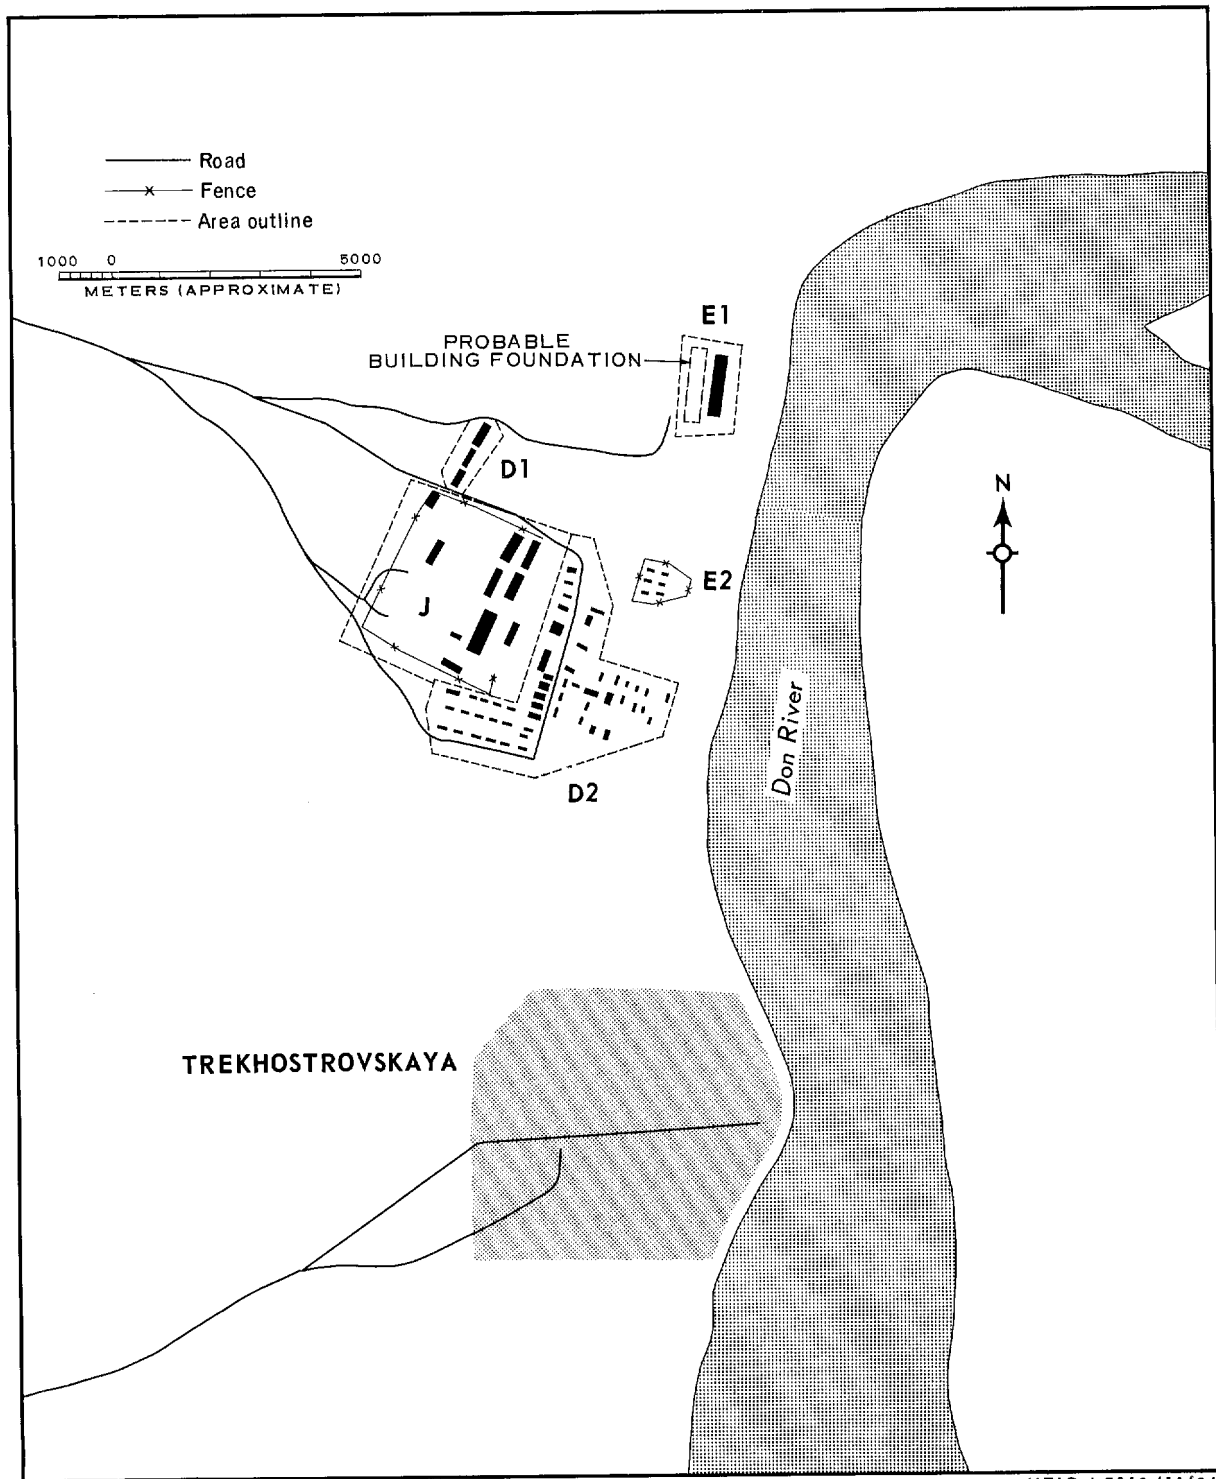

The area also contains a row of probably 50-60 cargo-type vehicles with a row of possible tractors or artillery pieces immediately behind it. There is open storage throughout the area however; the scale of the photography precludes identification of vehicles and materiel.
